Te Hunters.

If you would know of a country which bounds in turkey, duck, quali, squirels and other small game, with many a good chance at deer, get a copy of the lew booklet, "Fashers and Fins on the Prisco." If tells about hunting and tashing in the Ctarks and in the St. Francis Valley, Sent free on request by A. Hillyon, Coneral Passenger Agent, Prisco System, St. Louie, Mo. 4-6.

****************SCHOOL NOTES

Ripley County Schools. (Colleted and Edited by S. T. Foant, County

Richard Carrico, of Burr, reports his heol on the increase in atten He is going to have a new library soon.

Miss Lizzie Mohan writes that the new district where she is teaching has started off smoothly with an enrollment of \$3. The school is named Green Valley.

It is to be hoped that no teacher will fail to see that every pupil who is prepared to do so graduates. It may mean more for the boy or girl than we think. To say the least it will be a great incentive to them to go on into the higher work.

Miss Paulina Sullivan, of the Fair View school reports a full school with few tardies. New pupils enrolled are: Eddie and Anna Sullivan, Oscar Gyger, and Alworth Gregory. Mr. and Mrs. Wilson Adams were pleasant visitor last week. Miss Sullivan says: "I find nature study a pleasant and inter-esting study. My little folks are sweeping off the yard this week."

Supt. Carrington, in his speech before the recent Southeast Missouri Teachers' Association, at Cape Girardeau, paid Ripley county schools this compliment: "Two counties in Missouri more than all others have the most perfect plan for rural gradution and articulation of rural schools with high schools. I do not besitate to mention these. They are Ripley and Dade."

The teachers and pupils of the Flatwoods and Logan schools gave a very enjoyable entertainment at the Flatwoods school house on Thanksgiving day. Many of the patrons and other visitors were present. Dinner was serv ed and a miscellaneous program of recitations, readings and music was rendered after which a collection was taken and a box filled for the Orphans' Home at Mountain Grove, Mo., which is under the control of Mrs. A. C. Ames.

The following notes were received

The following notes were received from Miss Chloa Adams: "I think this column an excellent plan though I have never written before.

"I heartily endorse Miss Scott's method of teaching beginners to read. I have tried her method and find it the correct way of teaching.

"I noticed a report of the Doniphan schools having so few tardies. I had only two last month and none this month so far. I have serious trouble in teaching the primary geography and would be glad of any suggestions from the teachers through this column."

In answer to questions of some of the teachers in regard to agriculture, it has been decided not to make agriculture one of the subjects required for graduation from the eighth grade this year as some of the teachers are not teaching it and some who are teaching it did not begin at the beginning of the term. We hope, however, to make it one of the required studies next year. I hope every teacher who has not already done so will take up the work for the remainder of the term. No teacher should hesion the following subscribers will please specify the State map they deelre in specify the State map they deelre in specify the State map they deelre in of the term. No teacher should hesinot had a course in it himself but pupils and teacher should be learners together.
